AUSTIN PHELPS. A Memoir. By Elizabeth Stuart Phelps. 12mo, pp. 280. Charles Scribner's Sons. The author of this memoir observes in the course of it that a daughter does not make a good blographer; meaning, no doubt, that a daughter naturally falls under suspicion of prepossessions which must disable her from forming a perfectly candid and impartial estimate of the father. In the present case it will, we think, have to be admitted that the filial impulses are sufficiently in evidence to warrant some doubt on the general question; a doubt, however, which if unjustified ts wrongs a singularly noble, consistent and complete character. So near to perfection, indeed, does this picture of Austin Phelps approach that those who had no knowledge of the living man may not unnaturally, if uncharitably, resent the ascription to him of virtues and qualities almost superhuman. But the story Miss Phelps has to tell is full of very human and it is told with the eloquence, grace and wer to be expected from that accomplished author. incidents of this career were indeed comparatively ew and not other than usual. The real career of Austin Phelps was spiritual and intellectual. It was as teacher, as a great influence upon the minds of young a writer of stimulating religious literature, that he was known and honored.

There is little in the account of his childhood and th to foreshadow eminence in any kind. He was a quiet, studious lad, rather delicate in health, having strong religious tendencies, and clearly fitted for that career of preacher which he elected almost as a matter We do not place so much weight as his grapher does upon his precocity, but the statement that he never was a child is certainly significant. twenty he was settled over a Boston parish, and there remained very acceptably for six years. All this time he himself was full of doubts as to his adequacy for the post he had been called to; but his work soon attracted attention, his people grew to feel a deep affection for him, and the impression made both by his preaching and his personality was strong and abiding. At the close of these useful and instructive years the trustees of Andover Seminary elected him to fill the chair of sacred rhetoric and homiletics at that institution, and after much diffident hesitation he accepted the honor, and soon after removed to Andover and took thirty years he was one of the strongest supports of far beyond what it had formerly possessed; and he himself believed that a much more extended usefulness was before him when the great tragedy of his life opened, and, stricken by incurable and prostrating disease, he was doomed to twenty years of painful

His biographer gives an impressive description of his professorship; of what he was in the classroom; of the manner and effect of his teaching; of his personal influence upon the students, and of the feelegs with which they regarded him. In his letters, a selection from which appears as an appendix to the memoir, much light is thrown upon his views as to the significance and scope of his duty, and also as to the right methods of fulfilling the obligations of the ministry. All of this will be found highly interesting and illustrative, but to us the account of his stic life appeals with the greatest force, for here as Miss Phelps remarks, men's public and private lives are sharply differentiated. The statesman, the orator, the patriot, the leader of a great cause, the writer whose works are benefactions, the phil-anthropist whose soul seems overflowing with love nd compassion-are quite other men to their families intimate companions of privacy the least noble and estimable qualities stand revealed in all their ugliness. The sharp temper, the harshness, the hardness, care fully concealed from the outer world, find free exercise home; and wives and children often listen with a feeling of inevitable cynicism to the popular praises of those with whose demerits they themselves are best acquainted. When therefore we encounter a man who has not two faces and characters-one the world and the other for his family-we cannot but be deeply interested, for here, beyond question, is a thoroughly sincere and strong soul, disciplined through and through, and showing forth a truly Christ

Such, according to the testimony of his daughter was Professor Phelps, nor is it possible to suspect the dor and deep feeling of the narrator. Such a home life as he gave his children is a priceless inheritance pected, for surely no child with clean blood in its veins could pass through such an experience and not grow up pure and honest, helding sacredly to the honor, fearing only meanness and untruth. above the coarser temptations of life, feeling its seriousness, and aspiring to its nobler prizes only. chronicle general as it is and must be, of this beau tiful, harmonious, Christian home at Andover is by far the most charming and moving episode in the memoir, if we except the account of that long martyrdom which was to emphasize all the sufferer's highest qualities. Insomnia was his burden, and in all this in destroying and agonizing power. It closed his academical career at the very pitch of his efficacy and energy, and thrust him from his chair at Andover with relentless force. This was a fearful blow to him, yet he bore up bravely and refused to abandon work. He could no longer lecture, but he could write, and to the end of his life he wrote, and wrote voluminously.

The death of his favorite son Stuart, who was hilled while hunting by the accidental discharge of his own gun, was another and far heavier affliction. but he did not sink under it. On the contrary, as the long period of physical and mental torment stretched over the years, the racked soul grew by dint of suffer-ing to serener heights, and, developing the spiritual powers as those of the body declined, derived support from those airs of Heaven which the emaciated sufferer seemed already to breathe at times. His last days were full of peace, resignation and patient endurance. For years he had been compelled to spend all his summers at Bar Harber, where he had a modest cot-tage. The ozone of the sea was necessary to him, and it was here, at the oceanside, that his happiest honrs were spent. Here too he died, with little warning and painlessly. It must have been a welcome re-lease from protracted sufferings. His biographer has made a wise choice of the highly characteristic letters which occupy the last hundred pages of the volume. and the memoir as a whole must be pronounced an excellent piece of literary work, apart from its claimupon public attention as the account of a good man's unselfish and useful life. Miss Phelps has, moreover, done well to pass over in silence her father's con-nection with the Andover Controversy. Nothing could have been gained, and something might have been lost, by introducing that breeder of discords into

New Unblications.
